

HOW TO JUSTIFY YOUR RESSOURCES?

You must prove that you have enough resources for the current academic year. The minimum amount is 615 € per month over 12 months, so € 7,380 per year. This amount has not been changed to today's date.

You can combine several types of resources: grant + guarantor or employment contract (if CDI) + guarantor, in order to have at least 615 € per month for the next 12 months.

1 / If your resources come from abroad:

Two possibilities:

a/ Original of a Certificate of the bank's home country of an irrevocable transfer of € 615 minimum per month to cover your expenses (your name must be included) during 12 month for the 2021-2022 academic year. The amount should be reported as a possible in euros.

b / Original of certification of a French bank, confirming that the account opened by you, has a credit balance of at least € 7, 380; the minimum required for 1 year

This certificate is called "Solde de compte" or "Relevé de situation" ("account balance").

In both cases, to be valid for the prefecture, certificate must:

- ✓ **be recent and**
- ✓ **be stamped by the bank**

Be careful, "relevé de compte" is not accepted by Prefecture of Finistere.

2 / If you have a grant:

- Original of a recent certificate (less than 3 months old), stating the amount and duration of the scholarship, on letterhead from the organization that awards

3 / If your resources are provided by a person residing in France:

- Original of the signed support, stating clearly for the duration of support "for the academic year 2021-2022", photocopy of ID and proof of the guarantor resources (their last three pay slips and last tax notification).

Cf document "prise en charge" in the practical information sheets.

4 / If you have a job:

- Only CDI are accepted. It should then provide the contract and the last 3 pay slips.
